

Fatima Al-Rashid

Machine Learning Engineer

fatima.alrashid@clearviewmail.com | (469) 555-0156 | Austin, TX | [linkedin.com/in/fatimaalrashid-ml](#) | [github.com/falrashid](#)

SUMMARY

Machine learning engineer with 4 years of experience building and deploying computer-vision models in production. Experienced across the full ML lifecycle, from data pipeline design through model optimization and serving at scale.

CORE SKILLS

ML/DL	PyTorch, TensorFlow, OpenCV, ONNX
MLOps	MLflow, Kubeflow, Docker, Kubernetes
Languages	Python, C++, SQL
Cloud	AWS SageMaker, GCP Vertex AI

EXPERIENCE

Machine Learning Engineer

Clearview Robotics — Austin, TX

Aug 2022 - Present

- Built and deployed an object-detection model for warehouse robotics that improved pick accuracy from 91% to 98.5% in production.
- Optimized inference pipeline with TensorRT, cutting model latency by 65% and enabling real-time operation on edge hardware.
- Designed a data-labeling and active-learning pipeline that reduced annotation cost by 40% while improving model coverage of edge cases.
- Collaborated with hardware engineers to bring 3 new robot camera models into the vision pipeline.

Machine Learning Engineer I

Solara Vision Labs — Austin, TX

Jul 2020 - Jul 2022

- Trained and productionized a defect-detection model for manufacturing quality control, reducing false-negative defect escapes by 55%.
- Built a model-monitoring dashboard tracking drift and accuracy in production, catching degradation issues before they impacted customers.
- Ran systematic experiments across architectures (ResNet, EfficientNet, YOLO variants), improving mAP by 12 points over the baseline.

EDUCATION

University of Texas at Austin

M.S. in Computer Science, Machine Learning

2018 - 2020

Texas A&M University

B.S. in Electrical Engineering

2014 - 2018

CERTIFICATIONS

- AWS Certified Machine Learning - Specialty
