EXPERIENCE

Senior Database Administrator

Keystone Retail Holdings — Dallas, TX

Apr 2020 - Present

- Own database reliability and performance for a fleet of 45 PostgreSQL and MySQL instances supporting the company's e-commerce platform.
- Led a migration from self-managed MySQL to AWS Aurora, reducing failover time from 20 minutes to under 60 seconds during peak holiday traffic.
- Redesigned indexing strategy on the order-history database, cutting the slowest reporting queries from 45 seconds to under 2.
- Built an automated backup-verification process that catches restore failures before they become production incidents; this replaced a manual quarterly process that had missed 2 corrupted backups in the past.

Database Administrator

Meridian Bank & Trust — Dallas, TX

Sep 2015 - Mar 2020

- Administered SQL Server and Oracle databases supporting core banking applications with strict uptime and compliance requirements.
- Implemented a replication and disaster-recovery strategy across 2 data centers, achieving a recovery point objective of under 5 minutes.
- Performed quarterly performance audits that identified and resolved chronic query bottlenecks, improving average transaction processing time by 35%.

Junior DBA / Systems Administrator

Trinity IT Services — Fort Worth, TX

Jun 2013 - Aug 2015

- Supported day-to-day database administration and server maintenance for small and mid-sized business clients.
