SUMMARY

Frontend engineer with 7 years of experience building performant, accessible web applications in React and TypeScript. Specializes in design-system architecture and improving Core Web Vitals for high-traffic consumer products.

CORE SKILLS

Languages	TypeScript, JavaScript (ES2022), HTML5, CSS3
Frameworks	React, Next.js, Redux, React Query
Tooling	Webpack, Vite, Storybook, Jest, Playwright
Practices	Web performance, accessibility (WCAG 2.1), design systems

EXPERIENCE

Senior Frontend Engineer

Cobalt Retail Group — Portland, OR

May 2022 - Present

- Lead frontend architecture for the company's e-commerce storefront, serving 6M+ monthly visitors.
- Migrated the checkout flow from Create React App to Next.js with server-side rendering, improving Largest Contentful Paint from 4.1s to 1.6s and lifting checkout conversion by 8%.
- Built and maintain a shared component library in Storybook used by 5 product teams, cutting new feature build time by roughly 25%.
- Drove an accessibility remediation project that brought core flows to WCAG 2.1 AA compliance ahead of a legal deadline.

Frontend Engineer

Driftwood Digital — Portland, OR

Aug 2019 - Apr 2022

- Built responsive marketing and product pages in React for clients across retail and hospitality, averaging a 92+ Lighthouse performance score.
- Introduced automated visual regression testing that caught 30+ layout bugs before release over one year.
- Partnered directly with designers to translate Figma files into pixel-accurate, reusable components.

Junior Web Developer

Basecamp Studio (agency) — Seattle, WA

Jul 2018 - Jul 2019

- Built and maintained WordPress and static sites for small-business clients.

EDUCATION

Oregon State University

B.S. in Computer Science

2014 - 2018
